

FABER
IS YOUR TRUSTED
SUPPLIER OF CNG
CYLINDERS
FOR YOUR
SUSTAINABLE
MOBILITY

Faber eye-bird view of Cividale del Friuli (UD) Italy

Faber has been present in Pakistan since 1982 with supplies of gas cylinders for natural gas vehicles, by delivering more than a million of CNG tanks made in Italy. The time has come to write a new page on how CNG could be beneficial for sustainable and economic mobility of today and tomorrow.

Faber is committed to supporting the methane market in Pakistan, a country that wants to return to being the first place in the world for environmentally friendly and accessible mobility.

Since 1972, Faber has rapidly become the world leader in the production of cylinders types 1, 2, 3 and 4 and systems for the storage of high pressure gas for clean energy, CNG and H₂ and has introduced into market more than 15 ml of cylinders with a track record of reliability and safety of +45 years.
